Pumpkin seeds: 2-3 per hill 6ft apart Howden, Big Max, Jack Be Little	
Carrot seeds: ½ ounce per 100ft Little Finger, Chantenay, Danvers Half-Long	

If you would like something else, just ask because I'm sure I can get it!

You may request plants but I'm not sure if we will be able to provide them so you may want to buy seeds or buy plants yourself. We will know what we have available and how many when it gets closer to planting time.

NOTE: IF YOU WANT A GARDEN THAT REQUIRES MINIMAL LABOR I WOULD RECOMMEND PLANTING POTATOES, SWEET POTATOES, TOMATOES AND PEPPERS. YOU COULD PLANT 1 OR 2 DOUBLE ROWS OF POLE BEANS CLIMBING A 5-6FT FENCE THAT WOULD ALSO SUPPORT IRRAGATION LINES. THIS FORM OF IRRAGATION IS INEXPENSIVE , EFFECTIVE AND EASY TO REPAIR.

Your garden friend,

Mark Marshall

Note: Please send an email to both addresses below if you have any questions as Mark will be out-of-town from 1/29 – 2/14 and checking messages infrequently.
